

Alexander Montolio

Mobile Developer - System Engineer

Santo Domingo, Dominican Republic

 notalexander24@gmail.com  829-469-3570

PROFESSIONAL EXPERIENCE

Mobile Developer

Sistemas Integrados de Informatica (August 2023 - Now)

In my current role as a Mobile Developer, I design and build applications from scratch for the banking sector, with a primary focus on Dart/Flutter. I lead a small team, overseeing the full development lifecycle from architecture decisions to deployment.

- Development and maintenance of mobile applications
- Ensuring data security and protection
- Collaboration with multidisciplinary teams

Software Implementations Specialist

Hire Horatio (June 2022 - August 2023)

In this role, I was responsible for researching and providing the best software/system options for clients based on their needs. Some other tasks included:

- Regular meetings with clients and managers
- Implementing new tools or features for existing systems
- Adapting and configuring SaaS software packages
- Creating training materials for the respective SaaS software packages

Quality Assurance Specialist

Hire Horatio (Mayo 2021 - Junio 2022)

As a Quality Assurance (QA) Specialist in this BPO, I was responsible for ensuring the quality of my team's processes for the client I was assigned to. Some of my tasks included:

- Creating and implementing new processes
- Compiling data and evaluating associates' performance based on established parameters
- Creating assessments
- Regular meetings with the client
